HI-TECH STEEL INDUSTRIES L.L.C.

Hi-Tech - Your Builder of Technology

Hi-Tech Steel Industries, a member of Hi-Tech Group of Companies commenced its operations since 1995 with its logistic centre in Dubai, U.A.E. Since its inception, Hi -Tech Steel Industries has come a long way in providing the U.A.E. with reliable, cost effective and industrial and commercial services of very high standard.

As a member of Hi-Tech Group of Companies, Hi-Tech Steel has the ability to provide our customers with the global presence and financial strength of a world-class corporation and the expertise, "know-how" and market understanding of a local entrepreneurial operating company that can quickly adapt to the needs of our clients.

Hi -Tech Steel Industries is customer oriented and focuses on full service engineering management in the engineering industry.

TEAMWORK...

We build teamwork into potentially every project from the first telephone call. Everyone within our organization is dedicated and focused on being part of the project team, from timely administrative responses to progress meetings to punch list close-outs.

COMMITMENT ON TECHNOLOGY...

The efficient use of today's technology tools result in improved communication, more accurate responses to problems and a more successful project. We use digital cameras, computers and wireless telephones to their fullest extent without sacrificing personal interaction.

EXTENSIVE PROJECT EXPERIENCE...

Our key Project Managers and Superintendents average over 15 years of construction industry experience. The scope of completed projects by these professionals range from detailed interior finishes to multi-storey office buildings to complexes, phased renovations of operational facilities.

PRECONSTRUCTION SERVICES...

Early project interaction with the owner, designer and Hi-Tech results in a more accurate budget and schedule. Our experienced project/estimating team is very adept at integrating designers and engineers in to this phase to deliver a project more cost effective and faster.

Hi-Tech has the best combination of highly skilled and well trained team of professionals and the expertise to deliver high quality complex facilities to all its esteemed customers.

Hi-Tech has a wide range of industrial and commercial buildings viz. fertilizer plant, nurseries, dove houses, poultry farm, fish pond and bird sheds. Hi -Tech also offers comprehensive pre-construction, design/build as well as general project management and building services to the commercial and industrial developers.

Hi-Tech constantly concentrates on introducing innovative and state-of-the art services to improve efficiency and maintain good business relationship with its clients.

Structural Works

HI-TECH STEEL INDUSTRIES L.L.C.

Hi-Tech concentrates on improving its client's businesses through the facilities we construct and in the process we forge long-term client relationships founded on trust and confidence. We consistently out-perform and out-service the completion by "continual delivery" of the services promised. Additionally, we have established excellent working relationships with local subcontracting communities. We are constantly pioneering new ways to improve efficiency and enhance interaction between clients, designers and trade contractors.

Hi-Tech has the ability to provide a single-source responsibility for any construction project from initial design feasibility through project completion. Our thorough Pre-construction services program ensures accurate budgeting and scheduling. During construction, our crews are trained to operate safely, with high quality craftsmanship and efficiency.

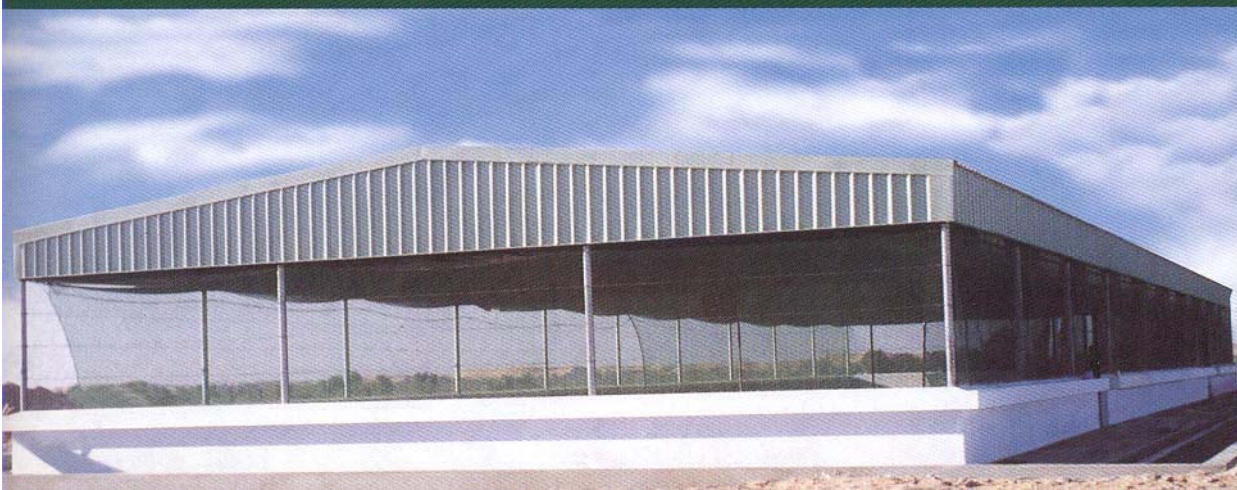

Hi-Tech - Your Builder of Technology

Hi-Tech has the capability and flexibility to provide commercial and industrial construction services throughout the U.A.E. Hi-Tech is a full-service construction management company offering comprehensive pre-construction, design/build as well as general project management and building services to the commercial and industrial developers.

ALTERNATE DELIVERY METHOD EXPERIENCE...

We have built projects using such delivery methods as design/build, construction management and various forms of design/bid/build. Our versatility and experience with a variety of delivery method enables us to present many options to our customers, best-suited to their needs.

HI-TECH STEEL INDUSTRIES L.L.C.

Hi-Tech Steel Industries L.L.C.

Hi -Tech Steel enjoys a reputation for providing a wide variety of custom fences with quality installations and materials at very competitive prices. Some of our fencing facilities include chain link fencing, ornamental fencing and PVC fencing. We also offer residential and commercial fencing .

Our fencing facilities are insured and we also offer a free, no obligatory consultation/estimate on material and installation costs. We maintain high quality standards for all our products and always believe in delivering the best to our customers.

CHAIN LINK FENCING

Hi-Tech Steel PVC Coated Chain Link Fences are available in three standard colours... green, black and blue. They are maintenance free and guaranteed for many years thereby providing an economical and viable fencing solution. They are ideally suited for residential and commercial applications wherein the appearance and security factors are of prime importance. They are often used for pools, back yards, parks, hospitals, tennis courts and other commercial structures.

Our fencing products have a combination of good quality, affordable price and installation executed by skilled and experienced hands to meet our customers needs.

LEADERS IN THE FIELD OF ALUMINIUM GATES & HANDRAILS

With extensive experience in fabrication of aluminum and steel gates for both the commercial and domestic markets we specialize in aluminium/steel gates, fences and balustrades, but can build virtually anything you require in the way of construction and building aluminium products, even helping with the design process for one off or specialist products.

Balustrading, Domestic and Commercial Gates
Domestic and Commercial Fencing Awnings & Pool
Surrounds Internal and External Stairways &
Handrails Arches Decorative Structures

- Manual sliding & hinged gates
- Pedestrian gates
- Custom designed electronically operated sliding and swing gates.

SAFETY...

We are very particular about the safe habits of our employees and subcontractors on the jobsite. We stress this by making safe behaviour becoming safe habits through weekly jobsite meetings, on-the-spot corrections, the buddy system and a detailed safety manual.

Engineers, Architects and Councils liaise with other to construct the most functional and cost effective building within the specifications provided.

PRINCIPLES THAT GUIDE OUR CULTURE

- We respect the value and contribution of every person and every job is essential to our success.
- We communicate openly and honestly throughout the organization.
- We do nothing that is unethical and dishonest.
- We provide a workplace free from harassment of any kind.
- We actively listen to each other. We acknowledge and respect each other's value.
- We recognize and reward performance.
- We believe that teams, not individuals, are the essential unit of this organization for achieving high performance.
